

Internship at Kyts

The mental health and wellbeing of Indians are greatly under looked. We as a society tend to shrug away from such topics and issues. The result is a spike in secret sufferings and self-harming tendencies. We, at Kyts, have taken a resolve to fight the stigma associated with depression, anxiety, Post Traumatic Stress Disorder (PTSD) and a host of other mental issues. Our empathic resolve is to help everyone heal within a non-judgemental safe space and lead better lives.

Health Psychology:

Our recent development is in the area of health psychology and we are focused on promoting health as well as prevent and treat of disease and illness. Research is one of the various efforts that we have taken up Under this area. We are currently working with patients, health practitioners and care givers in hospitals and clinics.

Our Internship Programme offers a wide range of opportunities for students and recent graduates to gain insight into the prevention and treatment of diseases/ illness and enrich their knowledge and experience in the area of health psychology, thereby contributing to the advancement of public health.
